Assignment - 4 Assignment Date 22 October 2022 Student Name GOKUL Student Roll Number 611819106011 Maximum Marks 2 Marks

Question-1:

Write code and connections in wokwi for ultrasonic sensor. Whenever distance is less than 100 cms send "Alert" to ibm cloud and display in device recent events.

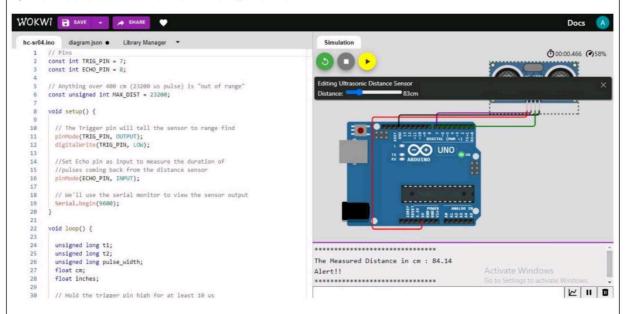

Solution:

```
// Pins
const int TRIG_PIN = 7;
const int ECHO_PIN = 8;
// Anything over 400 cm (23200 us pulse) is "out of range"
const unsigned int MAX_DIST = 23200;
void setup() {
 // The Trigger pin will tell the sensor to range find
 pinMode(TRIG_PIN, OUTPUT);
 digitalWrite(TRIG_PIN, LOW);
 //Set Echo pin as input to measure the duration of
 //pulses coming back from the distance sensor
 pinMode(ECHO_PIN, INPUT);
 // We'll use the serial monitor to view the sensor output
 Serial.begin(9600);
void loop() {
 unsigned long t1;
 unsigned long t2;
 unsigned long pulse_width;
 float cm;
 float inches;
 // Hold the trigger pin high for at least 10 us
```

```
digitalWrite(TRIG_PIN, HIGH);
delayMicroseconds(10);
digitalWrite(TRIG_PIN, LOW);
// Wait for pulse on echo pin
while (digitalRead(ECHO_PIN) == 0);
// Measure how long the echo pin was held high (pulse width)
// Note: the micros() counter will overflow after ~70 min
t1 = micros();
while (digitalRead(ECHO_PIN) == 1);
t2 = micros();
pulse\_width = t2 - t1;
// Calculate distance in centimeters and inches. The constants
// are found in the datasheet, and calculated from the assumed speed
//of sound in air at sea level (~340 m/s).
cm = pulse\_width / 58.0;
inches = pulse_width / 148.0;
// Print out results
if (pulse_width > MAX_DIST) {
 Serial.println("Out of range");
} else {
 Serial.println("********************************);
 Serial.print("The Measured Distance in cm : ");
 Serial.println(cm);
 if(cm < 100)
  // while(true){
  Serial.println("Alert!!");
  // }
 Serial.print("******************************):
// Wait at least 1000ms before next measurement
delay(1000);
```

Output:

1) If the distance is less than 100 cms, it alerts.

2) If the distance is more than 100 cms, it won't alert.

```
